

ACC EXTENDED SCHOOL 2010

SUMMER SUGGESTIONS & SOLUTIONS!

I am sure that you do not need me to remind you all that in a few weeks time the summer holidays will begin, and this year Ashford Christchurch Extended School has worked even harder creating and collaborating with a variety of organisations and providers to deliver a complete programme of varied fun activities and classes for our communities to enjoy!

With the opening of the new Academy in September Extended School has increased the provision of the Schools Community Hall so that our present and future pupils have a safe supervised central area providing activities and contact with members of staff who normally work on a daily basis at the school supporting our students. Club-Kingdom or Club-K will be open daily and will offer both a social and a spiritual area for all through out the summer break and I hope that this provision will provide the extra support during this time of change for all our families.

As for our community beyond the school there are activities for families with under fives and for those with relatives over fifty five! Last year as a Extended School, Ashford Christchurch was the only school in the area to be open every day during the summer period and it is no different this year, the only thing that has changed is our home. Due to building and refurbishment in preparation for the opening of the new John Wallis Academy, our current school building is closed to the public. Despite this for myself here at ACC Extended Schools it's business as usual, which simply means trying to create and provide the best holiday provision and support for all of our community!

I hope you enjoy what is going to be provided.. KEN COLLER-SOUTH.
